7. The organization shall implement policies and procedures to ensure that each applicant's examination results are held confidential and delineate the circumstances under which the applicant's certification status may be made public.
8. The organization shall have a formal policy for renewing the certification, if an individual's original certification has expired before the individual first seeks admission to the United States or applies for adjustment of status. Such procedures shall be restricted to updating information on licensure to determine the existence of any adverse action and the need to re-establish English competency.
9. The organization shall publish due process policies and procedures for applicants to question eligibility determinations, examination or evaluation results, and eligibility status.
10. The organization shall provide all qualified applicants with a certificate in a timely manner.

Maintenance of Comprehensive and Current Information.

1. The organization shall maintain comprehensive and current information of the type necessary to evaluate foreign educational institutions and accrediting bodies for purposes of ensuring that the quality of foreign educational programs is equivalent to those training the same occupation in the United States. The organization shall examine, evaluate, and validate the academic and clinical requirements applied to each country's accrediting body or bodies, or in countries not having such bodies, of the educational institution itself.
2. The organization shall also evaluate the licensing and credentialing system(s) of each country or licensing jurisdiction to determine which systems are equivalent to that of the majority of the licensing jurisdictions in the United States.

Ability to Conduct Examinations Fairly and Impartially.

An organization undertaking the administration of a predictor examination, or a licensing or certification examination shall demonstrate the ability to conduct such examination fairly and impartially.

Criteria for Awarding and Governing Certificate Holders.

1. The organization shall issue a certificate after the education, experience, license and English language competency have been evaluated and determined to be equivalent to their U. S. counterparts. In situations where a U. S. nationally recognized licensure or certification examination, or a test predicting the success on the licensure or certification examination, is offered overseas the applicant must pass the examination or predictor test prior to receiving certification.

Passage of a test predicting the success on the licensure or certification examination may be accepted only if a majority of the states (and Washington, D.C.) licensing the profession in which the alien intends to work recognize such a test.

2. The organization shall have policies and procedures for the revocation of certificates at any time if it is determined that the certificate holder was not eligible to receive the certificate at the time it was issued. If the organization revokes an individual's certificate, it must notify USCIS, via the Nebraska Service Center, and the appropriate state regulatory authority with jurisdiction over the individual's health care profession. The organization may not re-issue a certificate to an individual whose certificate has been revoked.

Criteria for Maintaining Accreditation.

1. The organization shall advise USCIS of any changes in purpose, structure, or activities of the organization or its program(s).
2. The organization shall advise USCIS of any major changes in the evaluation of credentials and examination techniques, if any, or in the scope or objectives of such examinations.
3. The organization shall, upon request, submit to USCIS, or any organization designated by USCIS, information requested of the organization and its programs for use in investigating allegations of noncompliance with standards and for general purposes of determining continued approval as an independent credentialing organization.
4. The organization shall establish performance outcome measures that track the ability of the certificate holders to pass U. S. licensure or certification examinations.

The purpose of the process is to ensure that certificate holders pass U. S. licensure or certification examinations at the same pass rate as graduates of the U. S. programs. Failure to establish such measures, or having a record showing an inability of persons granted certificates to pass U. S. licensure examinations at the same rate as graduates of U. S. programs, may result in a ground for termination of approval.

Information regarding the passage rates of certificate holders shall be maintained by the organization and provided to HHS on an annual basis, to USCIS as part of the five-year reauthorization application, and at any other time upon request by HHS or USCIS.

5. The organization shall be in ongoing compliance with other policies specified by USCIS.

Are There Any Limitations If This Application Is Approved?

If your application is approved, it will be approved for a period of five years. USCIS will conduct a review of your organization every five years to ensure continued compliance with the standards described. The review will occur concurrent with the adjudication of your request for reauthorization to issue health care worker certificates. If USCIS determines that you are not complying with the terms of authorization, or if other adverse information is brought to USCIS's attention, USCIS may proceed to terminate your authorization to issue health care worker certificates.
