Three-Part Telephone Seminar: Consular Processing For Experts

Speakers: Jessica Mullins-Ta (Discussion Leader), Noah Klug, Kenneth Rinzler, Laurie Snider, Alice Yardum-Hunter, and others to be announced.

Registration Deadline: January 6th, 2015

Kenneth Rinzler is an immigration lawyer in Washington, DC, and a frequent visitor to consular posts, having now traveled to 40 countries. A graduate of Georgetown University and Seton Hall University School of Law, he is a member of the District of Columbia, Indiana, New Jersey, and U.S. Supreme Court Bars. In addition to authoring articles for the American Immigration Lawyers Association (AILA), he has written on immigration law for the German American Chamber of Commerce. Before specializing in immigration law, he spent nearly ten years working as a legislative assistant and counsel to a U.S. Congressman, and thus has an intimate knowledge of Federal legislative and administrative procedures. As has always been his practice, Kenneth Rinzler does not charge for an initial consultation. Time constraints and the need to be able to converse with the prospective client about the facts of his/her particular case, however, mean that this policy only applies to telephone consultations; email inquiries, while welcome, simply never provide enough necessary information.

Laurie Snider is a Senior Associate in the Dallas office of Berry Appleman & Leiden LLP. She handles an array of business and family immigration matters including obtaining a variety of nonimmigrant visas and green card applications. Ms. Snider frequently accompanies clients to U.S. Consulates abroad to obtain visa stamps. Prior to attending law school, Ms. Snider worked for several years as a Human Resources Manager for an international software company.

She's served also as the organization's Liaison with the Port of Los Angeles, U.S. Customs and Border Protection, U.S. Citizenship and Immigration Services California Service Center, and U.S. Department of Labor. She represents employers and aliens in employment based nonimmigrant and immigrant cases, with a focus on those who are extraordinary or in the U.S. national interest, specialty occupation, professional and skilled workers, family based immigration, citizenship by descent, and complex naturalization and removal matters including for criminal aliens. Her grandfather was an extraordinary immigrant inventor of 20 machines in the food manufacturing industry having invented, for example, the sugar cone for ice cream.
